Established in 1888, this Company has always been in the lead for fair treatment and reliable stocks.

Owning and operating six modern warehouses and thirteen seed farms, we are in position to handle your growing orders for standard or special varieties of vine seed and seed corn to the very best advantage.

THE J. C. ROBINSON SEED CO.

Waterloo, Nebr.

Rocky Ford, Colo.

CHICAGO PICKLE CUCUMBER

One of the finest extra early sorts. Very productive and hardy. It is among the most popular sorts grown.

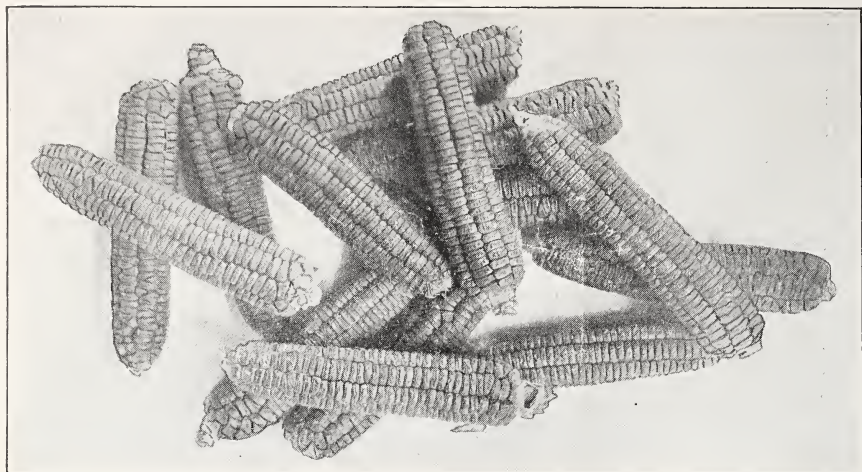

POLLOCK'S NO. 10-25 CANTALOUPE

The best sort for long distance shipping. Very uniform, rust-resisting, with salmon colored flesh.

VEGETABLE MARROW SQUASH

This variety deserves more widespread use. For table use, it is unexcelled. We grow both the bush and vining sorts.

GOLDEN BANTAM SWEET CORN

The best extra early yellow seeded sort. Ears about 8 inches long with eight rows.

CHICAGO WARTED HUBBARD SQUASH

The finest winter sort grown, and a favorite everywhere. We grow the Warted, Golden and Improved Hubbards.
